Assoc. Prof. Dr. Jamaluddin Aziz
Editor-in-Chief
Akademika Journal of Southeast Asia Social Sciences and Humanities

February 8, 2024

Dear Prof Dr. Aziz,

We wish to submit an original research article entitled An Analysis on the Deployment of Synergistic Cyber Security Awareness Model for the Elderly (SCSAM-Elderly) in Malaysia: A Survey for consideration by Akademika Journal of Southeast Asia Social Sciences and Humanities.

We confirm that this work is original and has not been publish elsewhere, nor is it currently under consideration for publication elsewhere.

In this paper, we discuss the analysis for the deployment of the Synergistic Cyber Security Awareness Model for the Elderly (SCSAM-Elderly) in Malaysia. The is significant to verify and validate the effectiveness of the SCSAM-Elderly model by analyzing the pre-survey and post-survey among the elderly using SPSS and SmartPLS.

This paper underscores the potential of deploying the proposed model to enrich the elderly's knowledge of cyber security. The elderly can acquire the knowledge and expertise needed to effectively protect themselves from potential online threats. We believe that the findings presented in our paper will appeal to the specific scientists who subscribe to Akademika Journal of Southeast Asia Social Sciences and Humanities. Thus, our findings demonstrate that this model serve as a tool and guide governments or organizations to raise awareness and teach the elderly about cyber security threats.

We have no conflicts of interests to disclose.
